

## THERMAL TRANSFER PRINTING

Videojet's DataFlex Plus could help improve your company's profitability simply by reducing your coding costs through increased packaging line reliability and efficiency.

### Main Features

- Simple, intuitive touch screen interface - minimal training required
- External USB for easy data transfer
- Easy ribbon changes and patented clutch-less system – reducing ribbon breaks
- Guaranteed 0.5mm gap between prints – optimising ribbon efficiency
- Unique 1km ribbons with speeds up to 48m/min

or visit our website – [www.videojet.co.uk](http://www.videojet.co.uk)

The DataFlex Plus prints high resolution codes that include variable information such as dates, times, batch codes, ingredients and logos on flexible film packaging, labels or glossy cards. This efficient printer is well-suited for applications in the snack food, bakery, confectionary, frozen and refrigerated foods, bagged fresh vegetables, dried fruits, meats, coffee, hardware and pharmaceutical markets.

Videojet's Thermal Transfer Overprinters (TTO) offer intermittent or continuous operation from the same unit, making them flexible to adapt to changing application needs. These printers deliver high quality thermal transfer imaging, superior performance and reliability.

Thermal Transfer Overprinter technology is ideal for labelling applications where you need to print high quality variable data just before the label is applied to the product, and our 300 dpi resolution ensures highly consistent codes, perfect for vision verification.

**Complete Customer Care**

At Videojet we offer you a world leading after sales service. You have the opportunity to take maximum advantage of the full Videojet bundle of products and services to obtain superior product marking and coding with maximum equipment uptime. Our families of green, environmentally friendly fluids, have been helping customers meet and exceed their expectations and objectives for years. We can also provide inks with fewer or no volatile organic compounds (VOCs) enforcing our commitment to a greener code.
